

ACH Authorization Instructions

This document provides an overall view of ACH transactions and outlines the steps required to set up ACH instructions with PLGIT for your use.

It's Easy: You can direct the PLGIT Client Services Group to move funds to or from your PLGIT account, utilizing the Automated Clearing House (ACH) system. An ACH request only requires one communication to the PLGIT Client Services Group either online, by phone, or by fax. In comparison, sending a Fed Wire to PLGIT requires you to contact both your local bank to initiate the Fed Wire and to contact the PLGIT Client Services Group to receive proper investment credit.

It's Cost Effective: ACH transactions are generally less expensive than wires, sometimes only a few cents versus a few dollars for a wire.

• How to set up a local bank account for ACH Purchases and ACH Redemptions through PLGIT:

You must pre-authorize PLGIT to process ACH transactions against your specific local bank account. To pre-authorize PLGIT, do the following:

1. Complete and forward the *ACH Setup Instructions* form to the PLGIT Client Services Group via fax at 1-800-252-9551.
2. Notify your local bank that PLGIT will be debiting or crediting your account. If your account has an ACH filter on it, you will need to provide an authorization letter to your local bank.

• The difference between ACH Purchase and ACH Redemption:

- ACH Purchase: the PLGIT Client Services Group will move funds **from** your local bank account **to** your PLGIT account.
- ACH Redemption: the PLGIT Client Services Group will move funds **from** your PLGIT account **to** your local bank account.

• How to initiate an ACH Purchase or ACH Redemption:

1. Online:
 - Go to www.plgit.com and select Account Access.
 - Login using your EON user id and password.
 - Select TRANSACTIONS, then select INITIATE ACH PURCHASE or select INITIATE ACH REDEMPTION, then select from your list of pre-authorized ACH banking instructions.
